**Work experience:**

01.08.2021 Christian Morten Borge Product and Systems development SP (Sole proprietary). I invented a new product (calendar holder for PC monitors) that could have given me a good income for many years ahead had it not been for people monitoring my PC who has made it impossible for me to work on projects because of leakage of sensitive information to people taking advantage of it for their own benefits. I have therefore decided to stop working on product and system ideas and continue working with other projects.

15.06.2020-22.01.21 Meny Vollebekk, shop assistant

26.01.20-26.03.20 Coop Mega Ullevål, shop assistant

10.2016-01.2019 Entrepreneurship (4 projects)  
 I resumed the work with the sports project I planned from 2005-2011 and added plans for team sports  
<https://oponentus.wordpress.com/newin2017and2018>  
 Over a period of 12 months I also worked on ideas for how cellphone holders with different technical properties can be used in different ways in public places around the world and for some months on ideas

- 06.2016-10.2016 for a new website for customized ads.  
Statens pensjonskasse, office work
- 02.2016-06.2016 Course through the Norwegian employment office in accounting
- 06.2016-10.2016 Work practice as employee in "Statens Pensjonskasse" through the course
- 2015 **A method/process of running police investigations by a server**, Entrepreneurship  
Inspired by my negative personal experiences after 2011 caused by people involved in crime and by that police failed to stop their criminal activities against me, and by the method/process I had worked out for the sports project I had worked on earlier, I thought out a method/process for running police investigations by a server. This work went on for a month or two and I filed a document as a patent application just to obtain evidence of it.
- 07.2005-12.2014 **Oponentus AS, Entrepreneurship**  
I successfully planned a complex and promising internet system for sports that lead to an important invention that didn't obtain patent protection but obtained evidence of copyright through a patent application(See [www.oponentus.com](http://www.oponentus.com)). The method and process is well described in a US patent application and is about running a cup by the means of real time, a tournament time-schedule, tournament participants and the interaction of the participants with the server. The prototype of the system used the domain [www.turneringer.no](http://www.turneringer.no). The project received funding from [innovationnorway.no](http://innovationnorway.no) in 2006/2007 and as a R&D project the years 2008-2012 from Skattefunn.no. Accounting (10-20%). I worked out and filed annual accounts for the business which were audited and filed to the Norwegian companies register and Norwegian tax authorities. Handling the project financially included handling vouchers, bank payments, reconciliation of accounts, other document filings using Altinn.no ,salaries and invoices.  
The word "Oponentus" was protected as a trademark in Usa and EU and did not mean "Opponent to USA" but had more a meaning like "Come and compete with other people".
- 01.2008-12.2012 **Private business**  
Apart from my role in Oponentus As I tried to earn an income from buying and selling stocks. That gave me an extra income during the years 2009-2011.
- 09.2006-09.2008 **Ikea Slepnden**, Call center employee  
Worked with customer services by Ikea's National call center in Norway
- 04.2004-09.2006 **Narvesen, kiosk worker/assistant**  
**Nordic Telecom**, Høvik, accounting assistant  
**Arpi Bemanning**, Oslo, construction worker  
**Din Finansrådgiver AS**, Drammen, financial advisor
- 04.2002-04.2004 **Bærum kommune (Municipality of Baerum)**, Home care services:  
Helping people in their homes with cleaning and shopping. Some reporting of peoples' health conditions through medical journals.
- 06.2001-06.2003 **Dynamic Progress As**  
I got in touch with a person who said he had the knowhow and would take on responsibility for a videocameraproject provided that a company I started would buy the equipment needed for it (money I had from sale of an inherited apartment). This was formalized in a written agreement through a lawyer. Formally the agreement was cancelled through the same lawyer in 2003 because the company never received the outcome of his work. This was an overambitious project and not planned well enough. I later renamed the company to

Denor As and used it when I tried to make an additional income in other ways. I ordered 3-4 different products I was curious about for finding a product to sell. Some of these were a product named Qlink that supposedly had health benefits (such as protecting people from electromagnetic fields), a product from Singapore that supposedly would generate new hair growth and an ironing board for mounting in a drawer. I demonstrated the ironing board sometimes in the local shopping center.

01.1998-2001 **Miscellaneous work**, I sold fire wood a winter and took some small jobs a period (including garden work).  
**Aftenposten**, Newspaper delivery In the period 08/98-07/00.  
**Sameiet Kirkeveien 110**, Cleaning job  
 Weekly cleaning of public stairs in the apartment building I lived  
**Oslo Budservice**, Car messenger job a couple of months  
 06.1996-12.1996 **Private business**, buying and selling stocks to obtain an income  
**Noka Securities AS**, Assistant settlements worker for a stockbroker firm

**Education:**

08.1994-06.1997 **University of St Andrews, Scotland**  
 2 years studies with subjects such as economics and management/accounting. I studied for an exam spring 1997 before I entered the University for a re-assessment the summer of -97 and started on my third year but quit after by personal reasons.

06.1993-06.1994 **Attended my military services**  
 08.1990-06.1993 **Oslo Handelsgymnasium**, Upper secondary school.  
 I had some summer jobs during these years.

**Courses:**

01.07.2005 Course in entrepreneurship that lasted for two weeks.  
 01.02.2005 Trace Elements, course in hair tissue analysis by Grethe Wauer Eriksen  
 01.10.2004 Course in insurance (storebrand) and wealth management (Mondiale) over a couple days  
 2002 Course in first aid over a day

**Computer skills:**

No specialist skills but have used common computer software such as Windows, word, excel and some software for organizing my work and working with product-/system ideas.

**Languages:**

Mother language Norwegian. My work language the years 2006-2013 was first of all English.

**Licenses:**

Norwegian driving license class B

**Physical activities:**

-Running  
 -I like participating in many different sports as an amateur (for example in tennis and soccer).

**Interests:**

News, work and doing what other people don't within the boundary of laws, family and other people I care about, using my experiences in good ways for society.

**Use of alcohol/drugs/ medicines:** No

Note: Special circumstances since 2011 has made me change work more often than I otherwise would have. Had it not been for these circumstances I would have continued the sports project I worked on for Oponentus As. This has also affected my life in other ways by for example delaying plans to find a woman for marriage.
